

LIFE IN CALDWELL

ROLL-OFF CONTAINERS ARE NOW AVAILABLE FOR THE COLLECTION, TRANSPORTATION, AND DISPOSAL OF WASTE GENERATED ON CONSTRUCTION, REMODELING, CLEAN-UP, OR LANDSCAPING PROJECTS!

TO GET A ROLL-OFF CONTAINER FOR YOUR PROJECT, THERE ARE A FEW THINGS TO REMEMBER:

- The City is the sole roll-off provider unless another company is registered with the city to provide roll-offs.
- A permit from the City of Caldwell Utility Department is required before putting it on the property.
Residents must sign an agreement with the Customer Service Department at City Hall and pay the fees associated, charges for hauls will be charged to the utility account and paid through the utility bill if they are customers.
- Only authorized users (owners, permittees, or contracted persons) are permitted to dispose of any refuse, brush, waste, or discarded items in a container.
- The container must be removed from the property within 30 days of project completion.

Contact the Customer Service Department if you have any questions or would like to obtain a permit for your next project

(979) 567-3271 Ext. 100 or 101

METER READING UPDATE

The City has updated some of our meter reading procedures! When you get your utility bill, you can check for discrepancies by reviewing your:

- Bill total
- Usage

If anything seems out of the ordinary on your bill, contact us and we can answer your questions!

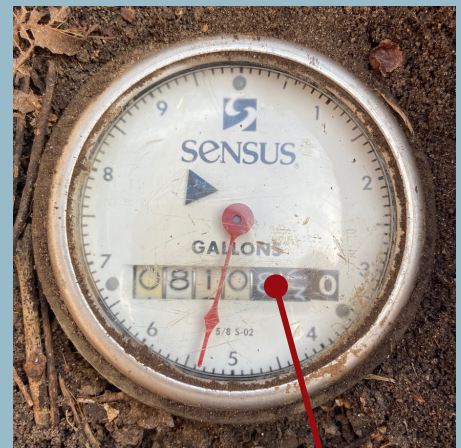

WATER METER

WHERE IS MY WATER METER LOCATED?

Your water meter sits inside a underground chamber connected to the water supply pipe, located in your yard, usually near the edge of the curb.

HOW DO I READ MY WATER METER?

Water consumption is read in thousand gallons. The meter is read like your car's odometer. You can check for leaks by looking at the red dial on the meter. If it is spinning very fast, you likely have a leak.

METER READING

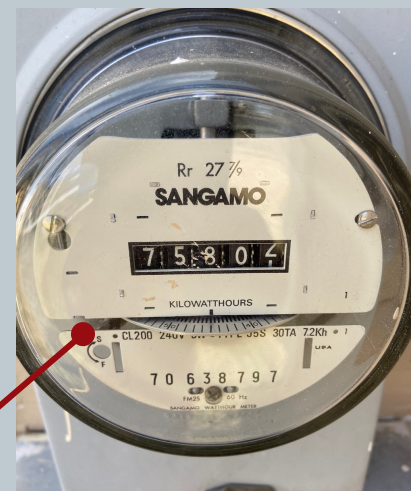

ELECTRIC METER

WHERE IS MY ELECTRIC METER LOCATED?

Your electric meter is usually on an outside wall at the back or side of your home or building.

HOW DO I READ MY ELECTRIC METER?

Electricity is read in kilowatt hours. To read the electric meter, locate the number dials on the meter from right to left.

**DIAL TURNS AS
POWER IS USED**
